Summary Care Record

Summary Care Record (SCR)

If you decide to have a SCR, it will contain important information about any medicines you are taking, allergies you suffer from and any bad reactions to medicines that you have had it will also include basic information about your current diagnoses. Giving healthcare staff access to this information can prevent mistakes being made when caring for you in an emergency or when your GP practice is closed. Your Summary Care Record will also include your name, address, date of birth and your unique NHS Number to help identify you correctly. If you and your GP decide to include more information it can be added, but only with your express permission.

For more information: Phone 0300 123 3020 or visit www.nhscarerecords.nhs.uk

- I do not wish to have a Summary care Record **I wish to opt out of SCR**
- (N.B. this will mean NHS Healthcare staff caring for you may not be aware of your current medications, any allergies or reactions to previous medication.)

Electronic Prescribing Service (EPS)

The EPS allows prescribers – such as GPs and practice nurses to send prescriptions electronically to a dispenser (such as a pharmacy) of the patient’s choice. This makes the prescribing and dispensing process more efficient and convenient for patients and staff. The NHS aim that by 2020 they will hopefully be paper free or a paper-lite service. To help achieve this The As a practice, we would encourage all patients to opt for electronic prescribing.

- I DO give consent for my prescriptions to be sent electronically to the pharmacy
- I DO NOT give consent for my prescriptions to be sent electronically to the pharmacy

Register your Type 1 Opt-out preference

The data held in your GP medical records is shared with other healthcare professionals for the purposes of your individual care. It is also shared with other organisations to support health and care planning and research.

If you do not want your personally identifiable patient data to be shared outside of your GP practice for purposes except your own care, you can register an opt-out with your GP practice. This is known as a Type 1 Opt-out.

Type 1 Opt-outs may be discontinued in the future. If this happens then they may be turned into a National Data Opt-out. Your GP practice will tell you if this is going to happen and if you need to do anything. More information about the National Data Opt-out is here: <https://www.nhs.uk/your-nhs-data-matters/>

You can use this form to:

- register a Type 1 Opt-out, for yourself or for a dependent (if you are the parent or legal guardian of the patient) (to **Opt-out**)
- withdraw an existing Type 1 Opt-out, for yourself or a dependent (if you are the parent or legal guardian of the patient) if you have changed your preference (**Opt-in**)

This decision will not affect individual care and you can change your choice at any time, using this form. This form, once completed, should be sent to your GP practice by email or post.
